Focus on every need of our customers, and fulfill the market with our enthusiasm.  
Profit lays the foundation of our development and thus quality improvement and cost control will permanently be the way to achieve further success in the future.

## About Heat Shrink Sleeves

A shrink sleeve is a label (seamed in a form with top and bottom open) which is applied to a container (bottle, can, pump, flask, etc), and it is being shrunk with heat to conform to the contours of the container tightly resulting in a smooth, quality display. Shrink sleeve packaging is often seen in beverage, health care, food and household industries and allows complete decoration of your product in a rich range of colours. With a 360 degree display, shrink sleeves give products maximum aesthetic impact and marketing exposure. The use of shrink sleeves as a high profile promotional tool has helped increase the sales of many major brands. Shrink labels have become a dominant label in many different packaging applications, it is seen everywhere in the shelf & supermarket. Texin has helped many major brands to have their products well established in the fierce market.

In today's market, people always think about how to make their products shining among so many competitors. It takes something special to grab eyeballs on the supermarket shelves. With super aesthetic and functional labeling and packaging advantages, shrink sleeve naturally demonstrates "shelf appeal" and easily to draw attention of potential customers. Heat Shrink Sleeves offer rich color shades and perfect design possibilities to make your product unique and most recognizable. With up to 10 colors, Texin offers shrink sleeves with special effects, pictures, special shades for your individual product concept and marketing strategy. Since the imprint of shrink sleeves is printed on the back of the label, shrink sleeves also protect against scratching and scuffing which often occurs during product shipments.

## Texin Shrink Sleeves offers so many features:

- \* Maximum Shelf impact and appeal.
- \* High quality decoration.
- \* PET shrink sleeve offers quality decoration of unusual shapes
- \* Suitable for all container substrates – metal, glass and PET.

### Promotional Shrink Sleeves(Multi Pack Sleeves)

Today most of major bands use multi pack shrink sleeve as a powerful promotional tool to increase the sales and make their products well established among competitors. PE Shrink film is seamed into promotional sleeves and items are put inside. With the application of heat, multi-pack shrink sleeve begins to shrink and conform tightly to the shape of the packaged items holding several items together tightly. It is especially useful for 'Buy One Get One Free' promotions purpose or put several products together for price-driven sales and easy carrying. It offers a strong shelf appeal in the supermarkets.

### Advantages of multi-pack Sleeves:

- \* Present sale appeal naturally
- \* 360 degree branding
- \* Theft resistant
- \* Buy one get one free promotion.
- \* Cover and print barcode
- \* Difficult pack combinations

Texin make packaging bags. Texin offers quality coffee bags, and other packaging bags for food, fruits, candy, beverage, etc. We provide a full range of bag packaging service, from printing to finished products, we can and will exceed all your packaging requirements.

### Features of Texin coffee bags:

- \* Materials are Eco-Friendly, food grade
- \* Barrier and moisture-proof. With aluminium foil, our bags ensure that freshly roasted coffee is protected from UV light, oxygen and moisture.
- \* Reinforced structure of quad-seal style helps hold the bag shape better and be stronger.
- \* Our standup bags with a tear-notch for easy opening, while ones with built-in ziplocks allow customers to re-close the bag after each use.
- \* Allows for easy label on the back panels or valve application.
- \* With one-way valves to allow freshly roasted coffee be packed immediately allowing it to degas within the bag while keeps oxygen out.

### Styles of coffee bags:

1. Quad seal coffee bags
2. Standup coffee bags with zipper(ziplock)
3. Side gusset coffee bags(Non-quad sealed)

### Materials available:

1. Glossy Finish: PET/AL/PE, PET/VMPET/PE, OPP/VMPET/PE,
2. Transparent: PET/PE, NY/PE.
3. Matt Finish: OPP/AL/PE
4. Paper Finish: Kraft/AL/PE, OPP/Kraft/PE.

**Valve Application:**

Valves can be applied in any styles and any materials for coffee bags. Our one-way valve allow roasters to pack freshly roasted coffee immediately without the worry of having the bag burst open due to trapped air. Freshly roasted coffee releases gas and continue to do so for up to 7 days. One-way valve will help release the gas while preventing air in-keeping freshness intact. Your customer will never be faced with stale coffee again!!

**Size of Gussetd coffee bags** (Regular sizes, Texin make Custom bags as per customer's requests).

Size(oz)	Width	Length	Side Gusset(inch)
8	3.55	10.82	2.35
16	3.55	13	2.35
32	5.51	16.93	3.15

\*\* (1inch=25.4mm, 1oz=28.35g)

**Standup coffee bags:**

Although the most preferred style of coffee bags for many coffee roaster is side-gusseted bag, our standup style is also very popular. With built-in ziplock and tearing notch for easy opening, our standup bags allows customers to re-close the bag after each use. It strikes the balance between function and efficiency. Different from gusseted bags, standup bags can make itself standup steadily which offers its another advantages to draw much attention from potential customers.

**Size of Standup coffee bags** (Regular sizes, Texin make Custom bags as per customer's requests).

Size(oz)	Width	Length	Bottom Gusset(inch)
2	4.35	6.3	2.35
3	4.75	7.9	2.35
4	5.1	8.25	2.35
8	6.3	9.05	2.75
16	7.5	10.2	3.55
32	9.25	13.2	4

\*\* (1inch=25.4mm, 1oz=28.35g)
